

ATCO Packaging Supplies PRESENTS:

Ten Reasons to Go Orbital with the Yellow Jacket 110® Stretch-Wrap Machine

1. **Productivity.** Boosts pack-to-ship performance while minimizing labor requirements.
2. **Security.** Locks any load to the pallet, throughout shipment, without banding or strapping.
3. **Versatility.** Wraps standard, oversized and irregularly shaped loads with no weight restrictions.
4. **Confidence.** Reduces the chance of product damage from shifting or sliding.
5. **Safety.** Eliminates jerky, side-to-side movements of hand wrapping that lead to back injuries and increased worker compensation claims. Eliminates injuries associated with metal banding
6. **Speed.** Stretch wraps most loads in 3 minutes or less.

ATCO Packaging Supplies PRESENTS:

7. **Portability.** Plugs into any 110-volt outlet and fork pockets in base allow Yellow Jacket to go where you need it.

8. **Convenience.** Works with all types of equipment, rider forklifts and narrow aisle lifts, uses standard machine grade 20" roll of film.

9. **Ease of Use.** Sets up in less than an hour, virtually maintenance free!

10. **Savings. Savings. Savings.** No other stretch-wrap method can beat its overall cost efficiency. Call for a free analysis of your projected savings.
